Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Tuesday 26 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain and hill snow for many. North Scotland drier.

Today:
Early cloud, rain and hill snow over Northern Ireland, Wales and southwest England moving eastwards. Rain then stalling over south and central Scotland later with some snow accumulations for hills. Feeling cold for many but turning milder in the west.

Tonight:
Most persistent rain clearing eastwards leaving a fairly cloudy night with some light rain and drizzle. Less cold for many than recent nights. North Scotland drier and colder.

Wednesday:
Mostly cloudy with some light rain and drizzle. More widespread rain arriving from the southwest during the afternoon. N Scotland colder and drier but snow showers for Shetland.

Outlook for Thursday to Saturday:
Remaining cold in the north, but becoming mild for a time in the south with some heavy rainfall. Across central areas, there is potential for some significant snowfall during Thursday.
